National Outcome Measures (NOM)

- NOM-14 Tooth decay/cavities, age 1-17 years
- NOM-17.1 Children with special health care needs
- NOM-17.3 Autism, age 3-17 years***
- NOM-17.4 Attention Deficit Disorder/Attention Deficit Hyperactivity Disorder (ADD/ADHD), age 3-17 years***
- NOM-18 Mental health treatment, age 3-17 years
- NOM-19 Overall health status
- NOM-20 Overweight/obesity, age 10-17 years

*This measure intends to capture children who are physically active at least 60 minutes per day. However 2011/12 NSCH only captures how many days children were physically active at least 20 minutes per day. This is one of the newly modified measures in the 2016 NSCH.

**The survey item only has information of bullying. It does not measure the percent of children who have been bullied.

***The measures include children who currently have the conditions.
